### Event Venue:

## MANIAGO:

Maniago is famous all over the world for its production of knives and of all kinds of cutting tools: the beginning of the history of the blacksmiths from Maniago can be dated back to 1453, when Nicolò from Maniago obtained permission from Venice Water Authority to canalize into an irrigation ditch the water of the Còlvera stream.

Along the same irrigation ditch, in correspondence of suitable drops in height, various ironworks were established, where, besides farming tools, people also started to produce swords and spears for the Republic of Venice.

Since then Maniago has given birth to hundreds of blacksmiths and knife makers and today is the seat of the District of Cutlery Works, made up of nine municipalities of the area, which employs about a thousand workers in the production cycle of cutting tools only and is the second industrial centre in the province of Pordenone.

Today the building that since 1907 housed the first large cutlery works in Maniago houses the Museum of blacksmith art and of cutlery works, which reconstructs the workplaces and displays the main past and present productions of the town's industry.

Maniago, with about 12,000 inhabitants, stands out for its large Piazza Italia, the beating heart of the community, overlooked by the main historic buildings: from the fifteenth-century Cathedral in late Friulian Gothic style dedicated to St. Mark the Martyr to Palazzo D'Attimis Maniago, the walls of which feature the fresco of St. Mark's lion, attributed to Pomponio Amalteo and evidence of the long Venetian rule.

## RACE:

The **Trial Time**., very nice route with wide and perfect road, characterized by stretches of ascent to 4%.
